ABOUT ME

Dynamic and results-oriented IT professional with expertise in full stack web development, network administration, and IT infrastructure support. Experienced in designing and developing scalable web applications while managing network systems, troubleshooting technical issues, and maintaining secure IT environments. CCNA-trained with hands-on experience in networking and system administration. Strong problem-solving abilities, adaptability, and a commitment to delivering reliable and efficient technology solutions.

EDUCATION

UNIVERSITY OF MANAGEMENT & TECHNOLOGY

2024-Present

CIVIL LINES COLLEGE

2022-2024

SKILL

WEB DEVELOPMENT

- React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, shadcn/ui, Redux, Redux Toolkit, PHP, Laravel, RESTful APIs, MySQL, PostgreSQL, Redis, Retrieval-Augmented Generation (RAG),

NETWORKING & SYSTEMS

- CCNA Fundamentals (Routing & Switching, Network Security)
- System Administration (Windows & Linux)
- Network Administration & Troubleshooting
- IT Support & Technical Assistance

TOOLS & PLATFORMS

- Git / GitHub
- VS Code / IDEs
- XAMPP / WAMP / Localhost Development
- Networking Tools (Ping, Traceroute, Wireshark basics)

SOFT SKILLS

- Problem Solving & Analytical Thinking
- Team Collaboration & Communication
- Adaptability & Quick Learner

WORK EXPERIENCE

FreeLancing

Fiverr, Upwork & Other Online Platforms

2022 – PRESENT

Frontend Web Developer

TechSigma

2023 – 2024

Network & IT Administrator

MPS Lahore

2024 – PRESENT

Full Stack Developer

MPS Lahore

2025 – PRESENT

PROJECTS & KEY ACHIEVEMENTS

DIGITAL ASSET MANAGEMENT SYSTEM (DAMS)

- Developed a web-based Digital Asset Management System for storing, organizing, and tracking company assets.
- Implemented secure user access, database management, and responsive design for ease of use.

PRESENCE MANAGEMENT SYSTEM (PMS)

- Created an attendance and presence management system similar to ZKTeco bio-time software.
- Integrated HR portal and departmental dashboards for efficient employee tracking and reporting.

E-COMMERCE WEBSITES

- Developed e-commerce platforms inspired by Daraz and Amazon.
- Implemented product catalog, shopping cart, payment integration, and responsive design for web and mobile.

PRODUCT HANDLING & STORE MANAGEMENT SOFTWARE

- Designed software for front desk store operations to manage inventory, sales, and customer interactions.
- Ensured real-time data management and reporting for efficient store operations.

FILE MANAGEMENT SYSTEM

- Built a secure and scalable file management system for storing, retrieving, and sharing organizational files.
- Implemented role-based access and version tracking for improved document control.

TASK MANAGEMENT SYSTEM

- Developed a web-based task management platform for team collaboration.
- Features include task creation, assignment, progress tracking, and notification alerts.

LEARNING MANAGEMENT SYSTEM

SERVER & NETWORK ADMINISTRATION PROJECTS

- Managed servers, including setup, maintenance, and troubleshooting for smooth operations.
- Configured network switches, routers, and firewalls for secure and optimized network performance.
- Implemented LAN/WAN configurations, network monitoring, and troubleshooting for multiple devices.
- Applied CCNA knowledge in routing, switching, and network security to support organizational infrastructure.

APPLICATION DEPLOYMENT & MONITORING

Deployed and maintained multiple production applications for monitoring, security, and collaboration, including:

- Uptime Kuma – Website and service uptime monitoring
- SolarWinds – Network performance and monitoring
- Zabbix – Server and network monitoring
- Passbolt – Team password management
- Vaultwarden / Bitwarden – Secure password vault
- pfSense – Firewall and network security management
- Fortinet – Enterprise-grade firewall and network protection
- Wazuh – Security monitoring, intrusion detection, and SIEM

ADDITIONAL TECHNICAL SKILLS & ACHIEVEMENTS

- Experience in IT support, system administration, and cybersecurity basics.
- Skilled in integrating software solutions with company networks and ensuring data security.
- Hands-on experience in deploying, maintaining, and scaling web applications on server environments.
- Proficient in version control (Git/GitHub), local development tools (XAMPP/WAMP), and IDEs (VS Code).
- Strong problem-solving, analytical thinking, adaptability, and team collaboration skills.
